1. Bidder verification

Only registered users aged 18 or older whose once-off R10 Yoco bidder-verification payment has been confirmed may bid. The verification payment is not a deposit and does not authorise saved-card or automatic charges.

2. Bidding and soft close

Each bid is binding when the sale is completed. A valid bid in the final 2 minutes restores a full 2-minute window; repeated late bids repeat the extension. Lawful pre-completion bid retractions will be processed and recorded.

3. Payment

The winning bidder must pay the full displayed amount through the winning-order Yoco checkout by the deadline above. Payment is complete only when confirmed by the provider. No goods are released before cleared payment.

4. Default

If cleared payment is not received by the deadline, Whacky Auctions may cancel the sale, restrict the bidder and re-offer the lot. Any default fee is capped at the lesser of 10% of the purchase price or the auction and additional costs recoverable under applicable auction regulations.

5. Condition and collection

The lot condition, known defects, inspection opportunity and collection/delivery terms are those disclosed in the listing and this schedule. Goods are sold as-is to the extent permitted by law; mandatory rights remain unaffected.

6. Incorporated master rules

This schedule must be read with the Whacky Auctions App Terms & Master Rules of Auction v1.1. The auction-specific schedule prevails only to the extent it is lawful and was properly disclosed.
